### SEPTEMBER'S MEETING

We were pleased to welcome along Diana Page to talk to us about the many benefits of aloe vera based products, produced by Forever Living.

Forever Living is the largest grower and manufacturer of aloe vera and aloe vera based products in the world. For more than 40 years, Forever Living has been producing the highest quality health and wellness products to help people look better and feel better.

Twenty-four years ago, Diana Page joined Forever Living. Diana has achieved phenomenal success over the years and is now considered to have one of the most successful Forever Living businesses in the UK, influencing many in the industry. The job has given her great flexibility to work around a growing family, and has enabled her to earn a good income.

Diana explained about the fantastic healing properties that comes from the inside of the aloe vera leaf, that treats many things including, indigestion, burns, immune system and also has anti-aging properties.

Diana told us about all the many and varied products that she had bought along with her and after her talk she was happy to talk with members and give advice.

As well as her business Diana also helps a charity called 'Smalls for All'. The items (new/nearly new bras and new pants) are sent around the UK and overseas. So far this year she has collected 1500 items. She thanked members for their kind donations to the charity.
